**Economy Range Single Skin Partitioning**

This low cost integrated single skin steel partitioning system is suitable for a wide range of applications from industrial offices and storage areas to factory dividing walls and interior walls.

A range of single, double and sliding doors and hatches are available and they can be fitted with most types of locks and latches including interlocks.

The frames are constructed of cold rolled mild steel with cold rolled tees. The steel or weld mesh infill sheets are spot welded.

An electrostatically applied powder coated paint finish is available in three standard colours: *yellow, grey and sandstone*.

**Economy Range Single Skin Partitioning**

**Technical Data**
